## CICE CONVERGE 2023

On November 14th at CICE Converge 2023 the B.C. Centre for Innovation and Clean Energy (CICE) honoured innovators in battery technology and energy storage, carbon management, low carbon hydrogen, and low carbon fuels for their outstanding contributions to high-impact decarbonization solutions. Rainhouse Manufacturing Canada Ltd.'s President and CEO, Ray Brougham proudly accepted an award as a Battery Technology and Energy Storage 2023 Changemaker. This recognition is a testament to Rainhouse's commitment to advancing clean energy solutions and contributing to a sustainable, net-zero carbon future. It highlights the pioneering work we're doing in the field of energy storage.
