

Exploring New Horizons at CANSEC 2024

Rainhouse Manufacturing Canada Ltd. is thrilled to announce a strategic partnership with LaFlesche, an Indigenous-led manufacturer based in Quebec. This collaboration marks a significant step towards reconciliation in Canadian innovation and economic growth. With a shared dedication to excellence, sustainability, and local manufacturing, this partnership is set to provide a diverse range of services, including precision CNC machining and injection molded plastics.

Together, LaFlesche and Rainhouse will address industry challenges by developing sustainable, made-in-Canada solutions. This coast-to-coast collaboration aligns with the Government of Canada's 5% Indigenous inclusion mandates and Industrial Technology Benefits (ITBs) obligations. Industry partners can expect enhanced product quality, increased customization options, and faster turnaround times, reinforcing our commitment to driving positive change within Canada's domestic supply chains.

Highlights from CANSEC 2024

We are excited to share our successful participation at CANSEC 2024, the largest and most important defence industry trade show in Canada, held from May 29th to 30th, 2024. This two-day event showcased leading-edge technology, products, and services for land-based, naval, aerospace, and joint forces military units.

Ray Brougham, President and CEO of Rainhouse Manufacturing Canada Ltd., along with the LaFlesche team and Peter Struder from CFN Consultants, proudly represented our innovative partnership at CANSEC. Our collaboration and shared vision for driving defence innovation and shaping the future of sustainable energy solutions were well received by attendees.
