Certifications and Compliance

Rainhouse maintains high standards of quality and compliance through Canadian Controlled Goods registration and designation as an Approved First-Level Manufacturer under DEF Stan 02-862: Naval Fasteners. We are ISO 9001:2015 certified, hold a Class MA Boiler and Pressure Vessel Licence (License No. LPB0201365), and our technicians are accredited to IPC-A-610 and IPC/WHMA-A-620 standards. We are also in the process of obtaining AS9100 certification, with completion expected in fall 2024.

Join Us in Celebrating Manufacturing and STEAM on Vancouver Island!

Most students graduating from university don't realize the number of available STEAM jobs right here on Vancouver Island, and we would like to change that. Rainhouse Manufacturing Canada Ltd. and the University of Victoria are excited to announce the highly anticipated 2024 Engineering Showcase, scheduled for Friday, September 20th, 2024, at the Bay Street Armoury. Join us to celebrate creative student innovation across Science, Technology, Engineering, Arts, and Math (STEAM) fields, including race car development, rocket and satellite design, robotics, and more. This event allows students to showcase their hard work, network with industry professionals, and demonstrate some of their tangible skills to the greater community.

Thank you for your continued support and partnership. Together, we're making manufacturing on Vancouver Island something to be proud of.

Come See Our Facility

We invite you to learn more about our capabilities and see firsthand the quality and innovation that Rainhouse brings to the table. Whether you're looking for custom components or complete manufacturing solutions, we're here to help you every step of the way.
