

Certifications and Compliance

Rainhouse upholds top-notch quality and compliance with industry standards through Canadian Controlled Goods registration, Reliability clearance, and status as an Approved First-Level Manufacturer in accordance with DEF Stan 02-862: Naval Fasteners. Rainhouse is ISO 9001:2015 certified, IPC-A-610 and IPC/WHMA-A-620 accredited, and holds a Class MA Boiler and Pressure Vessel License (License No.: LPB0201365). Rainhouse is in the process of obtaining AS 9100 certification, with completion expected in the fall of 2024.

Join Us in Celebrating Manufacturing and STEAM on Vancouver Island!

Most students graduating from university don't realize the number of available STEAM jobs right here on Vancouver Island, and we would like to change that. Rainhouse Manufacturing Canada Ltd. and the University of Victoria are excited to announce the highly anticipated 2024 Engineering Showcase, scheduled for Friday, September 20th, 2024, at the Bay Street Armoury. Join us to celebrate creative student innovation across Science, Technology, Engineering, Arts, and Math (STEAM) fields, including race car development, rocket and satellite design, robotics, and more. This event allows students to showcase their hard work, network with industry professionals, and demonstrate some of their tangible skills to the greater community. Thank you for your continued support and partnership. Together, we're making manufacturing on Vancouver Island something to be proud of.

Come See Our Facility

We invite you to learn more about our capabilities and see firsthand the quality and innovation that Rainhouse brings to the table. Whether you're looking for custom components or complete manufacturing solutions, we're here to help you every step of the way.

ENGINEERING SHOWCASE

12 PM to 5 PM

September 20th, 2024

Bay Street Armoury - 715 Bay St, Victoria, BC
