A CELEBRATION OF INNOVATION AND COLLABORATION

We're thrilled to share the incredible success of the 2024 Engineering Showcase, co-hosted by Rainhouse Manufacturing Canada Ltd. and the University of Victoria at the Bay Street Armoury! This event continues to serve as a key platform where Vancouver Island's brightest minds in manufacturing and STEAM (Science, Technology, Engineering, Arts, and Mathematics) come together to collaborate and showcase their innovations.

2024 Engineering Showcase

BUILDING COMMUNITY CONNECTIONS

This year's showcase was about more than just technology—it was about building stronger ties between education and industry. At Rainhouse, we take pride in fostering local talent and ensuring that Vancouver Island continues to benefit from this incredible resource. By creating opportunities for students and professionals to collaborate, we aim to keep talent local and support the growth of our community.
