

SHOWCASING THE FUTURE OF STEM

One of the most exciting moments of the year was the 2024 Engineering Showcase, hosted in collaboration with the University of Victoria. This event continues to grow each year, bringing together students, industry leaders, and the public to celebrate the future of manufacturing and STEM. We were proud to provide a platform for young talent to display their innovative projects, network with professionals, and inspire the next generation of engineers and innovators.

LOOKING AHEAD

As the year comes to a close, we are reminded of how far we've come. Rainhouse is not just a manufacturing company—it's a community dedicated to excellence, collaboration, and the pursuit of groundbreaking solutions. Guided by our "From Idea to Done" philosophy, we take pride in transforming visions into reality for our clients and partners. We look forward to what 2025 will bring and are grateful to have such an exceptional team and network by our side.

From all of us at Rainhouse, we wish you a joyful holiday season and a bright and successful New Year.
