

**EXPERT
REPAIRS**

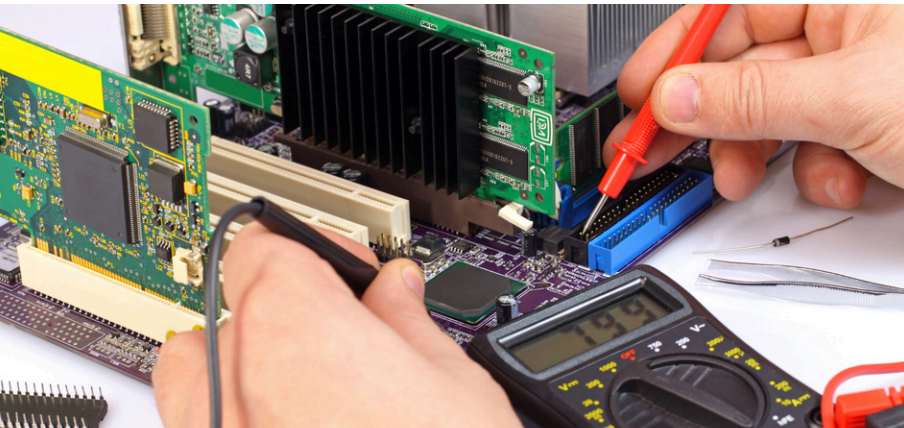

**SCALABLE
PRODUCTION**

Rainhouse delivers comprehensive electronic manufacturing services (EMS), offering tailored solutions for repairs and production across diverse industries.

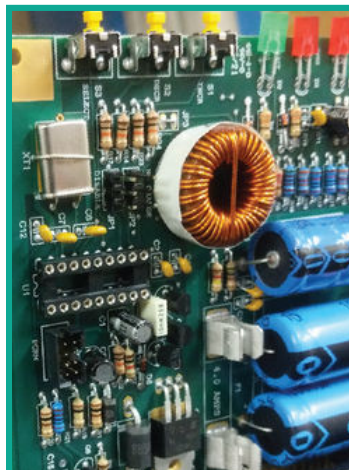

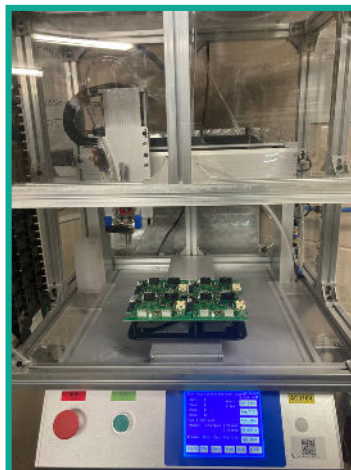

Rainhouse technicians are certified to inspect electronic assemblies to **IPC-A-610** and **IPC/WHMA-A-620** standards, ensuring exceptional quality and efficiency. We're ready to meet your project needs.

EMS Services

- Electronic Repair
- Printed Circuit Board Assembly Using Surface-Mount and/or Through-Hole Parts
- Conformal Coating of Completed Assemblies
- Loading Firmware and Programming
- Function Testing

Rainhouse technicians design, program, test, and inspect to Class 2 or Class 3 standards upon request.

Rainhouse specializes in circuit board population and electronic assembly. We deliver precision and reliability for industries with high standards.

WHAT SETS US APART

Rainhouse leverages state-of-the-art equipment and a highly skilled team to deliver efficient, cost-effective production while maintaining rigorous quality standards.

REAL-WORLD APPLICATION

Rainhouse works with Urban Solar to provide custom electronic components for their renewable energy solutions. The project involves assembling and programming complex circuit boards and ensuring seamless integration with Urban Solar's systems. Through our expertise in electronic manufacturing, we deliver high-quality, reliable components on time, contributing to the success of their products.

"1st class organization. The Rainhouse team always exceeds expectations for customer service and they are a highly trusted partner for our company."
